

CR Number: 6212

External Reference: SAFER SCR 2807; Terri Ungerman

Category: Web Services

Component: SAFER

Synopsis: Implement inspection history report as SAFER web service and FTP transaction.

Status: Open

Disposition: [2009-01-29] Discussed at ACCB.

Description:

[2009-01-29] Discussed at ACCB meeting. Volpe will update SCR to include FTP implementation as well as web services. CR will be voted on at February 2009 ACCB meeting.

[2009-01-22] Original

Arkansas is looking for a way to access past inspection reports in its CVIEW in addition to the inspection summaries currently available in the SAFER T0030 transaction. Our understanding is that though this data is available in Query Central, there isn't a Query Central web service that a CVIEW can use to query this data.

Since the inspection data exist in SAFER and SAFER has an interface with CVIEW already, this request can be implemented as a new transaction for CVIEW to access to SAFER. Depend on states' preferences, this data can be made available via FTP and or Web services.
